

AirAccess®

by NAPCO Access

Now Available! AirAccess® The 1st revolutionarily-easy cellular-based access control system & ACaaS
Grow your business & bottomline faster than ever possible

- ✓ **Easiest to Install and Operate**, cloud-based access, wireless panels with standard readers &/or networked wireless locks
- ✓ **Easiest Connection** - Cellular communications makes direct connections for you, outside your customers' IT network (no ports to open or static IPs needed)
- ✓ **Easiest Setup** - Cloud-based software auto-learns network devices so it's simply plug & play
- ✓ **Easiest to Bid & Budget** - Flat monthly system fees, saves enduser accounts the need to devote resource to an on-premise access system - Lowest TCO - Wins more accounts
